(a) It is doubtful if the money placed entirely at the disposal of the Economic Superintendents will not clash with the activity of the Edn Deptt - As the D.G. of Edn. says it will be necessary for the department to be consulted before the Supts can start a school or promise aid and it is therefore not clear why any money shd be placed at the disposal of the Supts if in any case the Deptt is to be consulted.

The Mysore Economic Conference,
Education Committee.

-

It is found that the efforts of District - - Economic Superintendents to organise special classes for the instruction of adults and for vocational - - training have not met with much success. At the time the starting of such classes is encouraged, hopes of pecuniary assistance are held out and when the - - workers find that the realisation of their hopes is deferred owing to the necessities of departmental - - correspondence they give up the enterprise in sheer disappointment. Mention may be made of a few specific instances. The Economic Superintendent of the Tumkur District organised Home Education Classes at Koratagere and Madgiri. The class at Koratagere was closed because the mistress did not hear of a grant having been sanctioned for her school. The class - - at Madgiri was closed later when the mistress was sent for training to the Normal School. The opening of a similar class at Turuvekere is dependent on pecuniary help being made available for a qualified teacher - - that is ready to take up the work. The Superintendent has been making some endeavour to start cobbling - - classes at Koratagere, Chiknayakanahalli and Sira. He has suitable teachers ready but he has not been able to make any further progress yet. Recommendations -

for

for grants in aid of certain industrial schools were received from the Presidents of the District Committees of Hassan, Mysore and Tumkur. The officers were - - - requested to make their recommendations to the - - - - Inspector-General of Education. Itinerant lecturers have successfully stimulated a desire for education and have received and forwarded to this office and to District Superintendents applications for aided elementary schools, evening classes and village libraries. Failure of each effort makes success of further efforts more difficult. If, therefore, any effective work of this nature is expected to be done by Conference - - - officers facilities should be created for a speedy - - disposal of the recommendations made by them. If sufficient funds are at the disposal of the Inspector-General, Presidents of District Committees may be - - instructed to forward to that officer all recommendation they receive from District Superintendents and Taluk Progress Committees. If Government are pleased to - - consider that special classes such as continuation - - classes, improvement classes, classes for the education of adults and minor industrial classes should be - - organised and conducted as an experimental measure by the Education Committee with the help of District - - Committees and Taluk Progress Committees, the Committee are prepared to take up the work if funds are placed at their disposal. For the current official year a sum of Rs.25,000 seems to be sufficient for the purpose. Of the amount a sum of about Rs.3,000 may be placed at the disposal of the President of each District Committee for utilisation in giving grants under - - -

definite

definite rules to be framed to the managers of - - - special classes of the kind referred to above .

DIARY No. 846

10 SEP 1915

Office of the Inspector General of Education in Mysore,

Bangalore, 1st September 1915.

D.O. No. 316

My dear Mr. Subba Rao,

Your D.O. No.1005/Edn. dated 28th August 1915. I have read the note by the Secretary of the Education Committee. In the past year I have disposed of all the applications as far as there were funds at my disposal and in other cases the applicants have been informed that their cases would be considered in the present official year. As you know, the budget provision under the different heads is limited and there are also the directions of Government and the Rules of the Grant-in-aid Code to be conformed to in the disposal of the large number of proposals and applications that reach me. Some of the District Economic Superintendents, notably those of Mysore and Kolar, consult me before they take action in any particular direction and I am at once able to explain to them whether I am in position to give effect to their proposals or not. If the other Superintendents also adopt this course I think the matter

matter will be very smooth. Instead of doing so, if each Superintendent or Committee conceives of doing something and carries it out leaving it to others to find funds, no Inspector General will be able to give wholesale approval to such action. Besides, the proposals have also to come to the Inspector General at a time when he has funds at his disposal still left. The Budget grant has also to be fairly distributed among the 8 Districts and utilized for the best advantage possible in each District concerned. Last year I placed a certain number of schools at the disposal of some of the Deputy Commissioners and this year also I am making a similar distribution. There are so many circumstances, however, governing each District and the distribution of the Budget funds that on the whole I think the easiest way is to consult the Inspector General beforehand and then to take action. If Government are prepared to sanction an extra grant of Rs.25,000 mentioned by the Secretary to the Education Committee, I shall have no objection to that course, although even then it will be necessary to consult the Inspector General as to the practicability of the particular proposals made and the suitability of the particular

particular places mentioned for experimental purposes.

Yours sincerely,

Ste. V Barnard

Order No. 3545-8/Edn 25-15-2
Dated. 26th January 1916.

The Secretary, Education Committee states that as much difficulty is now felt in providing funds for starting classes for special instruction of the kinds enumerated in the preamble, a ~~special~~ grant of Rs.25,000/- may be placed at the disposal of that Committee to enable it and the District Committees to open such classes as an experimental measure and transfer them to the Education Department after they have begun to work satisfactorily. Government consider that there can be no objection to afford some facilities to the Education Committee and the District Committees to carry on ~~such~~ special schemes of the kind referred to of instruction which are outside the regular work of the Education Department. They are therefore pleased to sanction a grant of Rs.10,000/- for this purpose. The grant will be utilized

Sd by Sri K. Subba Rao.

subject to the following rules:-

(a) The Education Committee will, in consultation with the District Committees apportion this amount among the eight districts in accordance with their requirements.

(b) The Committee should frame rules indicating the conditions under which the grants will be made and defining the limits within which the grant may be sanctioned by the District Committees and the Education Committee respectively.

(c) No grant should be made for more than six months, and the total grant in the case of a single institution should not exceed Rs.200/-.

(d) As soon as a grant is sanctioned, the fact should be intimated to the Inspector General of Education who will arrange to get the institution inspected departmentally at the end of the term for which the initial grant is sanctioned; and if the school is working satisfactorily will arrange either to take over the school under the management of the Education Department or for a further continuance of the grant from that department for such period as may be necessary.

(e) The Education Committee will be allowed complete latitude within the limits of the funds at their disposal in developing these institutions while they are in an experimental stage, but in all technical matters the schools

will be subject to the general authority of the Inspector General of Education, and the officers of the Education Department will be at liberty at all times to inspect the schools and take steps to hav the grant withdrawn or stopped if at any time it is found that the amount is not properly utilized.

2. The Inspector General of Education is requested to arrange to provide the sum of Rs.10,000/- required for this year out of the sums at his disposal and apply for an additional grant should this be found absolutely necessary later on. Suitable provision will be made in the budgets from next year.
